Experience

wizando.com » (<http://wizando.com>) 2016 january - present
Full-stack web developer

Webapix Interactive » (<http://webapix.hu>) 2015 april - 2016 january
Full-stack web developer

My responsibility is to maintain and develop new feature for sites like:

- dibook.hu (<http://dibook.hu>)
- dimag.hu (<http://dimag.hu>)
- ibusz.hu (<http://ibusz.hu>)

wizando.com » (<http://wizando.com>) 2012 october - 2015 april
Front-End Engineer

My responsibility is to design, build and maintain the front-end of the application.
In the past few months I also worked with the back-end(Symfony).

Technology stack: [Symfony 2.3](http://symfony.com/) (<http://symfony.com/>), HTML5, CSS3(with [Less](http://lesscss.org) (<http://lesscss.org>), responsive layout), jQuery, [Grunt](http://gruntjs.com) (<http://gruntjs.com>), [Twitter's Bootstrap](http://getbootstrap.com) (<http://getbootstrap.com>), [Twig](http://twig.sensiolabs.org/) (<http://twig.sensiolabs.org/>), Git

Invictus-Games Ltd. » (<http://invictus.com>) 2010 july - 2012 october
Full-stack web developer

My job was to design and implement several web applications. Some of them:

- invictus.com (<http://invictus.com>): Company website. Role: design and implementation of a custom CMS.

Technology stack: CodeIgniter, Twitter's Bootstrap, Less, Grunt, MySQL.

- [press.invictus.hu \(http://press.invictus.com\)](http://press.invictus.hu): A CMS for press releases. Role: design and implementation.

Technology stack: CodeIgniter, jQuery, CSS, HTML, MySQL.

- [innologin.hu \(http://innologin.hu\)](http://innologin.hu): Company website. Role: development.
- [igenx.hu \(http://igenx.hu\)](http://igenx.hu): Web application. Role: application design, contact with customers, development.

Technology stack: CodeIgniter, jQuery, CSS, HTML, MySQL.

Other, internally used tools and systems:

- Several API's for social and mobile games.
- A data-driven cross-promotion system for mobile games.
- Several applications to help publishing and promoting games: a CMS for microsites, in-game news.
- A social game(un-published). Role: development of an API for the client, a HTML and Javascript front-end and a back-end using CodeIgniter and MongoDB.

Web-Server Ltd.» (<http://web-server.hu>)

2008 december - 2010 june

Full-stack web developer

My job was to design and implement several internally used web applications, such as:

- An error reporting application, to help the work and communication between a front and back office.
- A server management tool.

Technology stack: ZendFramework, HTML, jQuery, CSS, MySQL

Freelancer

2006-present

Developing websites and web applications for different clients.

- [hotellycium.hu \(http://www.hotellycium.hu/\)](http://www.hotellycium.hu/)

- [adobi.hu \(http://adobi.hu/\)](http://adobi.hu/) My personal website
- [kassayzsuzsa.com \(http://kassayzsuzsa.com/\)](http://kassayzsuzsa.com/) My wife's website
- [color.adobi.hu \(http://color.adobi.hu\)](http://color.adobi.hu) A collection of colors for future inspiration.
- [Github repositories \(http://adobi.github.io/\)](http://adobi.github.io/)

Education

University of Debrecen Faculty of Informatics

Bachelor's Degree in Software Engineering and Mathematics

Graduated in: June 2008

Skills

Programming languages

PHP ([Laravel \(http://laravel.com/\)](http://laravel.com/), [Symfony \(http://symfony.com/\)](http://symfony.com/), [CodeIgniter](#)

<http://codeigniter.com>), [Yii \(http://www.yiiframework.com\)](http://www.yiiframework.com), [Zend Framework \(http://framework.zend.com\)](http://framework.zend.com)), Javascript ([jQuery \(http://jquery.com\)](http://jquery.com)), Java(J2SE), C

Markup languages

HTML(5), CSS(2, 3), XML, JSON

Databases

MySQL, SQLite, MongoDB, Oracle

Version control

GIT (Github), SVN, CVS

Operating systems

Windows, Linux

Testing

PHPUnit

Design

UML, Design Patterns, UI/UX, Responsive design

API's

Facebook, Twitter

Analytical tools

Google Analytics

Language skills

- Hungarian (mother tongue)
- English (intermediate)
- Romanian (intermediate)

Others

Category B driving license
